

# A TRUE LOCAL SUCCESS STORY

Mike Hess, a former Navy officer, was a home brewer for 15-plus years, honing his brewing skills, creating new recipes and keeping friends and family wanting more. In 2010, with his wife's blessing and his dad and brother's help, he designed and built a nano brew system. Afterwards he opened Mike Hess Brewing in an industrial park

off Miramar Road. The beer was cold, the reception warm and demand increased. So much so that MHB expanded into a state-of-the-art brewhouse and tasting room in San Diego's vibrant North Park neighborhood, in August of 2013. Between then and now, MHB began canning beer and took gold for their Rye IPA, Habitus, at the

2014 World Beer Cup and gold for Claritas at the 2016 World Beer Cup. And the rest is well, not history—the rest is the future. Let's make some together. There's a style for every palate.
